# WHAT OTHER TEACHERS ARE SAYING!

**My students love these escape rooms!**

So engaging and gets them thinking and problem solving. **Highly recommend!**

**A brilliant resource! ALL students where highly engaged.** I allowed

students to work together when solving the problems and it allowed for a fantastic opportunity for teamwork :)

This is a great product to help revise addition and subtraction. **The kids loved the escape room and were all engaged during the activity.**

# LOOKING FOR VOLUME 1?

“

My students absolutely loved this resource, we started with the Multiplication one and they found it challenging enough to stay engaged the entire time, but not so challenging that they were unable to complete it. I'm planning to do one escape room per week as a consolidation task. Highly recommended.
