TASK FOUR QUESTION SHEET

QUESTION I

Karina ordered 4 t-shirts for \$18.50 each. However, due to a late delivery the t-shirt company refunded her 50% of the total price. How much did she end up paying for her t-shirts?

QUESTION 2

Chris had 3 friends over for dinner. If they each ate 3/4 of a pizza, how many pizzas were ordered?

QUESTION 3

Jasmine had a running race against her best friend Romy. Romy completed the course in 45.67 seconds. If Jasmine took 3/10 of a second longer, what was her finishing time? Write your answer as a decimal.

QUESTION 4

Every day, Hayley eats 6/10 of a carrot for recess and her little sister eats the remaining 4/10. If Hayley eats the same amount of carrot every school day, how many carrots will she eat by the end of the week?

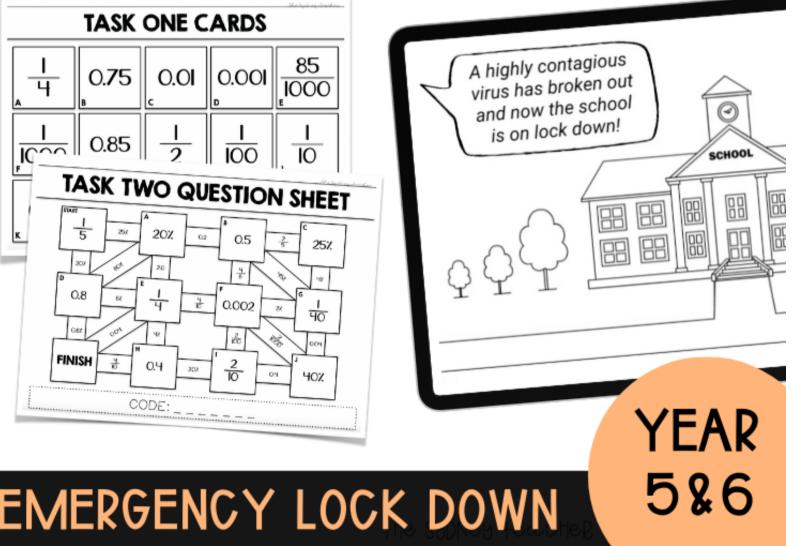

HOW YOU CAN USE THIS RESOURCE

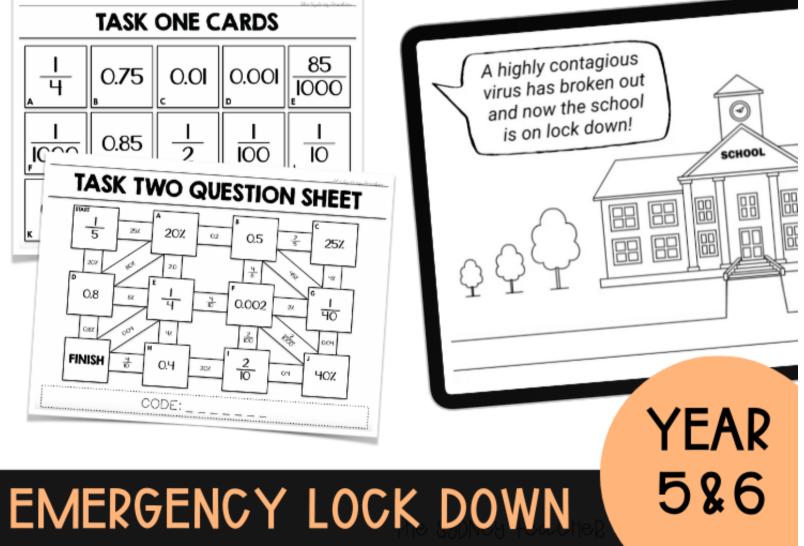

This escape room is perfect for...

- Revisiting fractions and decimals concepts
- Helping your students develop effective communication skills and team work!
- Whole class rewards!
- Open classrooms that WOW parents!

FRACTIONS AND DECIMALS ESCAPE ROON

WHAT OTHER TEACHERS ARE SAYING!

My kids just love all your escape rooms and are motivated to complete them. Such great activities as well for reviewing content.

My class loves the escape rooms and it is a such an **easy, low-prep way to engage students while also consolidating learning and developing team work skills**. Great resource!

My students loved this resource!

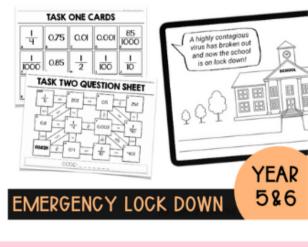

Even the most disengaged students worked together to solve the problems and compete to be the first finished! **Loved it and have used it again and again with new classes.** LOOKING FOR MORE?

$\star \star \star \star \star$

My students absolutely loved this resource, we started with the Multiplication one and they found it challenging enough to stay engaged the entire time, but not so challenging that they were unable to complete it. I'm planning to do one escape room per week as a consolidation task. Highly recommended.
